SINK MIXER INSTALLATION GUIDE

i

MAKE IT WONDERFUL

FRANKE

SINK MIXER INSTALLATION STEPS

STEP 1:
Installations must
be carried out by a
certified plumber.

STEP 2:
Ensure that the water
feed is a balanced
pressure and a
maximum 600kpa.

STEP 3:
Hot water feed should
be plumbed on the
left and cold water
feed on the right.

STEP 4:
Both hot and cold
water lines are to be
flushed properly of
foreign matter prior
to fitting the mixer to
ensure no damage to
the ceramic cartridge
surfaces.

STEP 5:
Allow a 35mm hole
in sink or deck for
Franke sink mixers.

STEP 6:
In-line strainers must
be installed on all
installations to ensure
no additional foreign
materials damage the
ceramic cartridge.

STEP 7:
Flexible connectors should
be fitted to the mixer using a
combination or shifting spanner.
The 1/2" female nut should be
fitted to an angle valve. Special
care must be taken to ensure the
washer is not damaged due to
over tightening or twisting of the
flexible connector.
Failing to adhere to the above
installation instructions will deem
your warranty null and void.

FRANKE SINK MIXER WARRANTY

This warranty is valid for 10 years from date of retail purchase on mixer body construction and 2 years on the mixer cartridge. Franke warrants products free of manufacturing defects. The warranty is for defective products and no claim can be made due to incorrect installation. The warranty does not include normal wear and tear and abuse of the product. Franke South Africa will not be held liable for any damages, of any nature, including but not encompassing, consequential or indirect loss arising from any defects. Proof of purchase is required when lodging a claim.
